Description (include arrangement, types of material, subjects covered, processing notes, etc.):

The University of Toledo Urban Affairs Center was founded in 1980, with an objective to “enhance economic vitality and quality of life in Toledo and its metropolitan region by identifying challenges and facilitating solutions for neighborhood, urban and regional development.” Since its founding, it has been involved in many urban initiatives, including neighborhood development, downtown revitalization, historic preservation, and the creation of a housing network. The Urban Affairs Center’s services, including survey research, community data, and promoting community engagement are represented in this collection. With the exception of a few annual reports and newsletters, the collection primarily consists of notes and reports of the many projects in which the Urban Affairs Center participated over the years. The files are arranged alphabetically, grouped by project.
