Description (include arrangement, types of material, subjects covered, processing notes, etc.):

This collection contains the files of J. Robert Carroll as advisor for UT students who are studying abroad. The collection covers the period 1966-1981 and has been arranged into two separate categories.

The first category is material that deals directly with the University, its students, or professors. This portion of the collection contains personal correspondence, Foreign Study Advisory, and Fulbright-Hays material. Also included are brochures, pamphlets, and posters on the various programs being offered to the student. This portion of the collection is in box 1.

The second category deals strictly with promotional material from the various cities, countries, and schools. These are arranged alphabetically by country and within each country by the city name. Much of this material does not have a direct relation to the University but has been included because of interest to the collection. This portion of the collection is in box 2.

One of the more interesting things in this collection is the number of letters written to Dr. Carroll from the students in the countries. Many of these give accounts of the everyday life of these students. This allows for insight into the culture and life of the country.

This collection was originally part of the University Convocations collection but was removed and a new collection was created. The Convocations Collection is PA/51.
