**Description** (include arrangement, types of material, subjects covered, processing notes, etc.):

These files contain records of the UT College of Engineering's Toledo Science Day from 1960-1969. Records include lists of judges and students, lists of science project ratings, registration materials, newspaper clippings, and listings of the computer program used to assign spaces to the projects. There is also a file which records the development of Science Day from an idea in 1958 to a reality in 1960.

The records are arranged chronologically.
