

## Honored By Planetarium Group

George Ritter, Toledo attorney and major benefactor of the University's Ritter Planetarium and Observatory, and Helen Brooks, professor-emerita and first director of the Planetarium, were honored recently at the annual banquet of the Great Lakes Planetarium Association held in the University Club. Mr. Ritter, who also has established scholarships in the UT College of Law, was presented with a plaque recognizing his "outstanding contributions to astronomical education." Mrs. Brooks was recognized for her role in the design and initial operation of the Planetarium, which opened in 1967.
