

Enrollment Drops From Last Year

**Incomplete Figures
Show Decrease of 175**

A drop in University enrollment from last year was reported by Miss Hazel D. Geiner, registrar, upon compilation of figures through Tuesday night.

With 1887 day students and 733 evening students for a total of 2,620, the total enrollment shows a decrease of 175 students from last year. These figures, however, are not final, Miss Geiner said, because there will undoubtedly be more late registrants.

There are also 57 students registered in the American Institute of Banking classes, but these do not figure in the regular University enrollment.
