Dear Miss Emch:

Do forgive me for this belated thanks for your kindness in sending me the historic photograph of that memorable evening you created at the gathering of the "Friends of The University." Your rare imagination and energy unparalleled created a marker in the history of my favorite library.

You may be sure that its history can never fully be written unless that evening is vividly and brilliantly described as only you can do it. I am sorry I have been a little bit out of circulation for the past month and probably shall continue to be home under "house arrest" by my doctor for at least another month. It would be so nice to hear what your imaginative plan for the summer is converting into magic realism.

With warmest good wishes and great thanks.

Sincerely,

Ward M. Canaday
