INVESTIGATE BUS FARE LIBRARY PROBLEM

Committee Will Look For
Available Halls for
Dances

The appointment of a committee to study the library problem was made by the Student Council in its first meeting, Monday, September 26. This action is part of a long-range plan to improve the library.

It is in the belief of the Student Council that the library is one of the most important factors in the education of the student.

Several features of the plan, which was presented by Robert Marshall, was the establishment of several study halls where students who are weak in certain subjects will be given special attention.

It is believed that this will have a strong effect on those who wish to do serious study work.

The committee also considered the possibility of having the library moved to a more convenient location.
