An active interest in every constructive project.

Athletics And Activities

A recent sports article in a Toledo daily...
discussed the public as a new system of financing athletics.

In spite of the fact that we have wholeheartedly supported University athletics...
we feel that the true state of affairs should be stated.

It is obvious that the athletic authorities give out misleading information...
which indirectly cast reflections upon other University activities.

Students Vs. War

With fighting in the East and there in the Great Chaco...
with dangerous rumors being the a sufficient cause.

Millions of words have been written, and hundreds of editorial columns...
about the absurdity and utter futility of War.

Who then, are identified with the war? No body wants it and life is not over...
but the war is still going on.

Because a political slogan says something is bad and it is so...
it is taken as fact, much more than it is.

Let's Education give us positive knowledge...
through the study of History, Geography, and the sciences.

Let's War, there should be no War. Intelligent students should realize that War is evil.
