6 - about Cigarettes
As to the cigarette paper on Chesterfields

THIS reel of cigarette paper is sufficient to make 42,000 Chesterfield Cigarettes. It is of the finest manufacture. In texture, in burning quality, in purity, it is as good as money can buy. Cut open a Chesterfield cigarette. Remove the osobacco and hold the paper up to the light. If you know about paper, you will at once note the uniform texture - no holes, no light and dark places. Note also in dead white color. If the paper is made right - that is, uniformly - the cigarette will burn more evenly - there will be no taste to it and there will be no color from the burning paper. Other manufacturers use good cigarette paper but there is no better paper made than that used on Chesterfield. You can count on that!
