Dear Indiraji:

Thank you for your letter dated July 19th regarding the interview published in an American periodical.

This was based on an interview given some two and a half or three years ago, long before you appointed me a Minister. But it was only published the week after I became a Minister - that is, some sixteen months ago.

Under the circumstances, frankly I do not remember all that I did or did not say. Reading the material now, I believe they have edited and abridged it here and there. This has led to some distortions.

My correct views on these questions have been set forth in four convocation addresses delivered this year. I am enclosing them for your perusal and I shall be most grateful if you can find time to go through them.

With kindest regards,

Sincerely yours,

S. Chandrasekhar
