

Jan. 13, 1927.

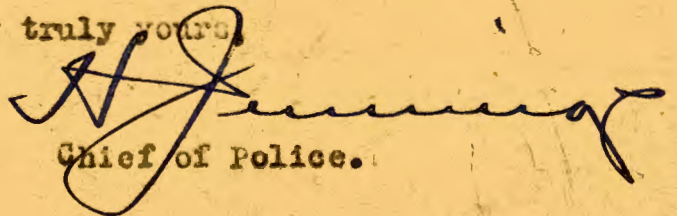

Mrs. Grace Jamison,-

You remember some few weeks ago I called your attention to the fact that persons not connected with the Safety Building were using our dining-room. Today I noticed four young ladies in there again from the Court House, and some of the people from this building were forced to wait.

I want you to take the matter up with Mrs. Aldrich and instruct her that in the future none will be allowed to eat in our dining-room unless employed in the building, or a guest of some of our personal friends connected in some way with the Police Department or Safety Building. As Mrs. Aldrich is furnished her gas, lights and equipment, I think it no more than fair that the employees of the Police Department and persons employed in the building should come first.

I also wish that you would get a report from Mrs. Aldrich in reference to her expenses and income for the year of 1926, while serving meals in this building.

Very truly yours,

Chief of Police.
