Gentlemen:

I was up to Ann Arbor, Michigan the other day and visited with Thomas O'Brien, Chief of Police of Ann Arbor. He informed me that he has a Meilink Safe that is broken and some small parts of same are missing. He would like to have your district man for that territory stop and have a look at same to see if it can be repaired. I told him I would notify you for him, so would appreciate your taking care of this.

Yours very truly,

HJ/S

Chief of Police.
