

HYNSON, WESTCOTT & DUNNING

PHARMACEUTICAL LABORATORY

BACTERIAL & BIO-CHEMIC THERAPEUTIC PRODUCTS

BALTIMORE, MD.

July 1st, 1926.

Mr. Harry Jennings,
Chief of Police,
Toledo, Ohio.

Dear Sir:

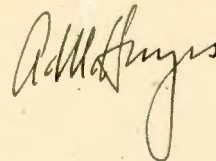

At the suggestion of our representative, Mr. Hulsmann, who again recently visited you, we have sent you, by parcel post, with our compliments, 24 of our Merкуроchrome Applicator Bottles, for further distribution among the Police Stations under your charge.

We were gratified to learn that your Department is employing Merкуроchrome as a first aid prophylactic and general antiseptic in place of Tincture of Iodine with satisfaction and sincerely trust, as we believe, that the product will continue to be found effective for this purpose by you.

Very truly yours,

Hynson, Westcott & Dunning
