

To the Faculty:

The results of the recent collective bargaining election -- a change of only 16 votes would have produced a majority for UT-AFT -- only strengthen our long standing determination to achieve a negotiated contract for University of Toledo faculty. We will now work for an election to be held at the earliest possible time. We will also continue to inform the university community about trends in higher education, the situation on this campus, and the need for collective bargaining.

To those who cast their ballots for UT-AFT we give sincere thanks. To all our colleagues we wish a joyous and refreshing holiday season. Let us work for a majority in 1975.
