

November 5, 1926.

Mr. George M. Sheriff,  
Honor,  
Michigan.

Dear Sir:

We have your estimate on the private road, commencing at the bottom of the hill and following the old road north and west to the gate at the northeast corner where it connects with the road into "Trails End".

That you agree to clean grade of all brush and stumps and make the grade, also the graveling. You also agree to make two turn-outs and place ten yards of gravel, five yards in each pile near the grade, for \$650.00.

We will agree to this proposition and you may start work immediately.

Yours very truly,

HJ/S
