**APPROVAL OF
CONSENT
AGENDA**

Dr. Gaber highlighted accomplishments pertaining to her Call to Action over the last 20 months in the following areas:

**PRESIDENT'S
REPORT**

- Raise UT's national standing
- Increase enrollment, retention and student preparedness
- Increase externally funded research
- Increase philanthropy/fundraising
- Ensure a UT education remains affordable by reducing administrative costs

She stated that our people continue to do great things to move this institution forward - creating a culture of ownership and accountability.

Recent dashboards included the following:

- Spring 2017 enrollment increased by 2%, which is a four-year high. This is also the third consecutive term for such an enrollment increase (Summer 2016, Fall 2016, Spring 2017).
- Fall to spring retention has increased by a few basis points. This is a five-year high.
- YTD total fundraising is \$17.2 million, up 69% - a nine-year high (planned gifts account for \$7.5 million, compared to \$1.5 million for the same time last year).
- Alumni participation rate YTD 3.89%
 - Building the pipeline...
 - Camellia Bowl (December): hosted 300+ alumni and donors
 - Tampa and Ft. Meyers (January): hosted 175+/- alumni and donors
 - Florida swing in March
- The amount of new competitive research awards continues to outpace last year, up 45% YTD, which is a three-year high.

In the academic arena, Dr. Melissa Valiska Gregory, Associate Professor of English, has been selected as the inaugural Presidential Faculty Fellowship recipient. Established Fall 2016, the fellowship is intended to advance faculty

leadership development, present opportunities within higher education administration, and improve faculty career satisfaction.

With Diversity and Inclusion, the celebration of Black History Month continues. Multicultural Student Success has hosted 12 events (6 remain) and the kick-off luncheon featured Dr. Angela Davis – an activist, scholar, and author. The event was sold out with more than 1,000 students, faculty, staff and community members in attendance.

Scholarship Days were hosted on January 21 and 28. This will be the fourth year for this recruitment event targeting high-ability students. 981 prospective direct from high school students attended, 11% increase over last year – this is record attendance.

We are working with Purdue University, the University of Michigan and the University of Illinois as part of a team leading the National Science Foundation's Innovation Corps program in the Midwest. Since the start of the program, UT ranks sixth behind Northeastern University in the number of teams that have been selected to participate. Teams must submit an application to the National Science Foundation, pass an intake review, and demonstrate appropriate commitment to the process which includes participating in a seven-week intensive program. The University receives a \$50,000 grant for participating.

Junior Michaela Rasmussen has been named to the Women's Basketball Coaches Association 2017 Allstate Good Works Team – honoring student athletes that have dedicated themselves to bettering the lives of others through giving back to their communities. Michaela is the first Rocket to be named to the prestigious squad.

Recently, a dependent eligibility verification assessment has been completed which has the potential to save the University over \$1 million in health care costs/claims. This is the first ever assessment beyond the normal open enrollment and qualifying events.

Year-to-date coverage of the University with Communications and Marketing has exceeded 22,477 total mentions, up 30% over all of FY16, with 4.5 months remaining.

A trip to Columbus was made on February 13 and 14 to meet with legislators and IUC presidents regarding the Governor's proposed budget.

Board of Trustees Chair Speyer thanked Dr. Gaber and her team for an incredible amount of work that has been accomplished in a relatively short period of time. Chair Speyer reminded everyone to remember that this is a journey, not a destination. The University is not where it wants to be, but remarkable progress is being made to get there given all the challenges.
